modextreme
agriculture facing extreme climatic events

*Workshop*

ACG

The Team of Work Package 2

September 7-8, 2016, JRC

Basic concepts

Using rules and impacts tha ACG allows building rotation templates, which are repeated at run-time according to simulation length

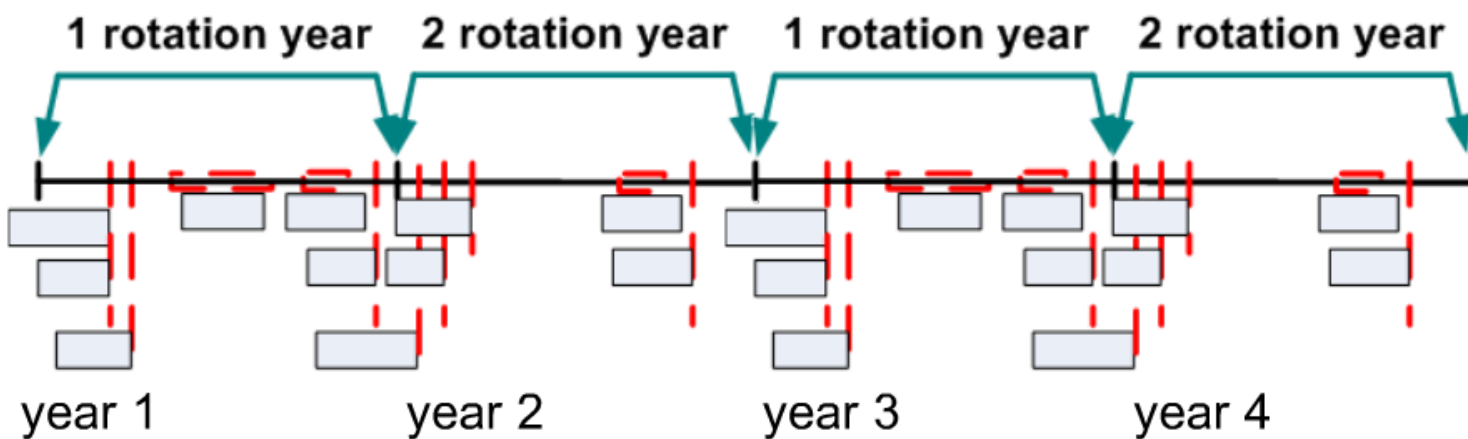

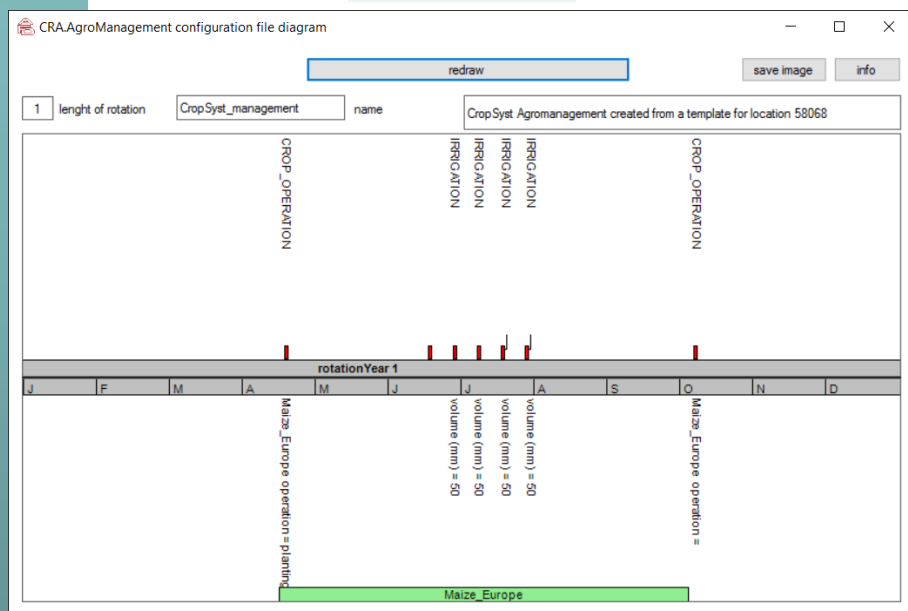

A rotation template

Basic concepts

Replicating rotation years

Combining agromanagement files

1th year

1th year

2nd year

1-year cycle maize

1-year cycle winter wheat which includes two years

Combining agromanagement files

Tick Keep rotation year unchanged….

Combining agromanagement files

Untick Keep rotation year unchanged....
